

CMH Medical College & IOD Laboratory
Histopathology

Code	Test	Fee	Requirements	Reporting time
3560	Biopsy (large)	8,500	Biopsy tissue with history (and radiology reports)	10 days
3568	Biopsy liver/muscle	6,500	Biopsy tissue with history (and radiology reports)*	10 days
30052	Biopsy (medium)	5,500	Biopsy tissue with history (and radiology reports)	10 days
3527	Biopsy (medium) x 2	11,000	Biopsy tissue with history (and radiology reports)	10 days
3561	Biopsy (small)	5,000	Biopsy tissue with history (and radiology reports)	10 days
3669	Biopsy small x 2	10,000	Tissue	10 days
3918	Biopsy small x 3	15,000	Tissue	10 days
3541	Paraffin blocks/slides to patients	1,000	Written request and copy of CNIC	2 days
3571	Cytopathology review	2,500	Prepared smears on microscopy slides	3 days
3434	ER/PR	9,000	Tissue	10 days
3538	ER, PR, HER-2	12,000	Biopsy tissue with history (and radiology reports)	1 week
4651	FNA and cytopathology smears for reporting	3,000	Prepared smears on microscopy slides	4 days
3540	FNA by pathologist, preparation and reporting	4,500	Biopsy tissue with history (and radiology reports)	1 week
3503	Gynecological, cervical or vaginal smears	4,000	Prepared smears on microscopy slides	3 days
3436	HER-2	5,000	Biopsy tissue with history (and radiology reports)	1 week
3528	Histopathology review case with immunohistochemistry	11,900	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	10 days
35289	Histopathology review case without immunohistochemistry	5,000	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	10 days
3528	Immunohistochemistry x1 (each antibody) with reporting	6,000	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	10 days
3499	Immunohistochemistry x1 (each antibody) without reporting	5,000	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	3 days
3569	Renal biopsy (medical)	11,000	Biopsy tissue with history (and radiology reports)	10 days
3486	Special staining per section (reticulin, PAS) with reporting	800	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	3 days
1357	Special staining per section (reticulin, PAS) without reporting	700	Paraffin-embedded tissue/sections mounted on microscopy slides, with clinical documents	2 days
3566	XL female genital tract tumor	11,900	Biopsy tissue with history (and radiology reports)	10 days

Note: *Muscle biopsy must be at least 1cm long and pinned at both ends to a cardboard base, so that it does not contract and crumble up.
